Hello and compliments for your component.

I am an Italian webmaster and I am New in your site.

I have downloaded your componente but I cant download module.

THE ERROR I have found in your site is that ALL download buttons is linked to com_rafcloud_1.0.2beta.zip

PLEASE, can you check.

Bye and more compliments.

Igor

ps. escuse my english.

I'm sorry !!!! It's my mistake.
All the links should be ok now.

Best regards

Skorp
