
Joomla Archive Content

Posted by bloggita - 2009/10/07 20:57

Hello,

I have a little question...

RC work in joomla archive content? :huh:

Many thanks and best regards.

I realized that does not work and I added this code at the plugin "rc_joomla_content_plugin.php" after

```
if (($runMe)&&($loadWord))
{
```

Add:

```
//archive
$databse->setQuery("SELECT * FROM #__content WHERE state=-1");
if ($cur = $databse->query())
{
    while ($row = mysql_fetch_object( $cur ))
    {
        $stag = " ".$row->title;
        $stag = " ".$row->title_alias;
        $stag = " ".$row->fulltext;
        $stag = " ".$row->introtxt;
        if ($this->cacheTag($stag,$metaKey))
        {$stag=null; $metaKey=null;}
    }
}
```
